ENCHANTED FARM Produce, Products and Programs for Healthier Lifestyles WHO ARE WE? Enchanted Farm is located in Roswell, New Mexico on the Spring River. We are located about ½ half mile past the zoo on East College, just on the edge of town. Enchanted Farm is owned and operated by Michael Richardson and Susan Alston-Richardson and lovingly watched over by our farm dog, Riley. As owners of the approximately 20 acre farm since 1988, we have created an oasis complete with gardens, pond, river trails, guest quarters, hobbies studio and store. A trip to our farm is like entering a new world separate from the surrounding town and landscape. You won't believe you're still in Roswell. Our farm is completely pesticide free. Our chickens and goats are truly free-range and happy. Our setting is serene and relaxing. Life is busy at Enchanted Farm. We grow pesticide free produce and eggs and offer these on Saturdays at our farm from May to November. We offer Relaxing Hobbies workshops and classes through our studio. We have guest cottages for over-night accommodations. We have retreat programs and casual gourmet cooking classes and demonstrations. In addition, our studio store has crafts by local artisans, gourmet food items and gifts. For more information on any of our programs and activities please link to the appropriate selection on our website. We look forward to meeting you in the future, Michael, Susan and Riley
